RE: T. Mark Schmidt Grant Program Letter of Support

To Whom It May Concern:

On behalf of the Florida Four Wheel Drive Association I wish to offer our support for the Ocala National Forest in their efforts to obtain grant funding from the T. Mark Schmidt OHV Recreation Grant Program. Maintaining a desirable and sustainable public access roadway system for motorized vehicles will provide opportunities for enjoying the natural environment.

It is our hope that the Ocala National Forest is chosen for grant funds to assist with providing the public with appropriate educational material concerning proper use, safety and general information. Additionally our intent it to see the Ocala NF with appropriate maintenance funding to improve upon and sustain the OHV and mixed use trails. For this we offer our support for the Education and the Maintenance Grant Proposals.

Thank you for your time and opportunity to provide our interest in the grant selection process.

Cordially,

Jason Kawaja
President, FL4WDA
